Voice Tonality

**THE
SOUND OF
YOUR
VOICE
PUTS AN
INSTANT
SMILE ON
MY FACE.**

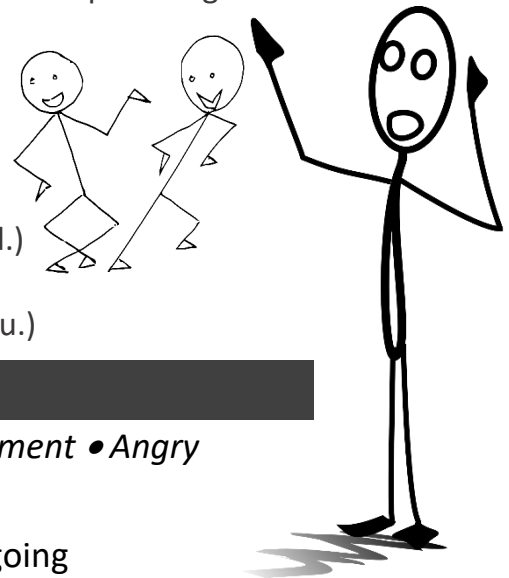

Your tone of voice is the attitude behind what you are saying. It is how we use our voice to change the meaning of our words.

The Power of Voice. Same Words. Different Meanings.

Read this next sentence aloud: "I didn't tell her you were stupid." Begin by saying the sentence aloud, emphasizing the first word. Continue repeating the sentence, each time emphasizing a different word:

- "I didn't tell her you were stupid." (Somebody else told her.)
- "I didn't tell her you were stupid." (I emphatically did not.)
- "I didn't tell her you were stupid." (I implied it.)
- "I didn't tell her you were stupid." (I told someone else.)
- "I didn't tell her you were stupid." (I told her someone else was stupid.)
- "I didn't tell her you were stupid." (I told her you're still stupid.)
- "I didn't tell her you were stupid." (I told her something else about you.)
